

Dr. Stefan H. E. Kaufmann

Max Planck Institute for Infection Biology

Dr. Stefan H. E. Kaufmann is the Founding Director and Director of the Department of Immunology of the Max Planck Institute for Infection Biology in Berlin. He is a Professor for microbiology and immunology at the Charité, Humboldt University, Berlin, and Honorary Professor at the University Clinics Benjamin Franklin, Free University Berlin. Dr. Kaufmann is the Past President and Honorary Member of the German Society for Immunology, Past President of the European Federation of Immunological Societies (EFIS) and Vice President of the International Union of Immunological Societies (IUIS). Dr. Kaufmann was born 1948 in Ludwigshafen am Rhein. He studied biology at the Johannes Gutenberg University of Mainz, 1977 PhD (with highest distinction, summa cum laude). From 1987 to 1991 Dr. Kaufmann was Professor for Medical Microbiology and Immunology and from 1991 to 1998 was a full Professor of Immunology at the University of Ulm. His scientific interests include immunity to bacterial pathogens with emphasis on tuberculosis and rational vaccine design. Dr. Kaufmann was responsible for initiating the Day of Immunology to raise public awareness in immunology. He has also received numerous scientific awards (e.g. A. Krupp Prize for Young Professors, 1987, Aronson Prize of the state of Berlin 1988, Young Investigator Award (1983) and Investigator Award (1993) of the German Society for Hygiene and Microbiology). He was awarded a Doctor Honoris Causa from Université de la Méditerranée, Aix-Marseille II. Dr. Kaufmann has been the coordinator of several international and interdisciplinary projects including Grand Challenge 6 by the Bill and Melinda Gates Foundation. He has had more than 600 publications mostly in high-ranking journals. He is a highly cited immunologist (ISI Thomson). He is the editor or member of editorial boards of more than 20 international scientific journals and a member of various professional societies, e.g. German Society for Immunology, American Academy of Microbiology, Berlin-Brandenburg Academy of Sciences, German Academy of Sciences 'Leopoldina' and World Innovation Foundation.
